object

S 4 1/2 "like" "shot across the bow"--intimidation not intended to injure

S 4 1/2 people responsible for object. have direction & guidance but lax in conduct & dedication to professionalism, "like" militia as opposed to professional. Directed higher up to perform activity. Animosity involved, but plausible denial needs to be retained. Some people in decision making group secretly & irrationally hope "accident" of this type would occur just out of spite. Directed from highest level possible in organization. Joint decision & agreement.
